DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Independent claims 68 and 73 are allowed over the prior art which does not disclose a first and second field magnets displaced in an rotational direction of the rotating shaft according to the magnetic force of the first and second field magnets and the direction of the torque generated in the rotor, and in response to a first rotational direction and in response to an opposite rotational direction of the rotor. In which of the first and second field magnets displace in an axial direction of the rotating shaft and in a rotational direction while another of the first and second field magnets are fixed under a condition where another of the first and second field magnets are held on the rotating shaft.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
